NEWSTEAD
INTERIORS

The design of interior spaces is of the utmost importance to the quality of your life.

You spend the bulk of your life indoors. Whether it is at your home or office, indoor spaces are what you see and experience more than anything else.

Newstead Interiors specialize in helping you to create interior spaces that reflect your unique personality and bring you happiness.

Newstead Interiors is a full-service interior design firm delivering residential and commercial projects from ideation right through to installation.

Newstead Interiors design, customise and source all interior elements in collaboration with the client to deliver bespoke residential and commercial projects.

Whether it is a single piece of furniture or the transformation of an entire residence, the team of qualified architects and interior designers have experience ranging from high-rise apartments, complete office transformations out to luxurious beach residences.

Newstead Interiors offer a bespoke and personalised experience across all stages including consultation, design and installation. Your highly qualified team is led by Virginia and Ric De Luca who have more than fifty years combined experience in architecture, interior design and decoration.

TENERIFFE APARTMENT

An apartment nestled in the heart of Teneriffe with a spectacular view overlooking the Brisbane River. We worked closely with the client to create a family home that was child friendly yet still warm and luxurious.

The proximity to water was the inspiration for the stunning blues throughout the home, whilst use of rich wallpapers and floor rugs softens the hard surfaces. Refurbishment of existing quality furniture in combination with new custom made designs were undertaken to make each room truly special.

WEST END RESIDENCE

A house for a design savvy couple and their young family that makes best use of a small West End lot. Being sympathetic to the needs of growing children underpinned the design of this residence that maintains privacy from the street.

Whilst inconspicuous from the outside, the interior features a mix of rooms that are commanding in its use of volume and space. High ceilings and simple detailing allow for an eclectic mix of interior elements, including artwork and heirloom furniture, to become the hero.

PRODUCT DESIGN

TENNYSON APARTMENT

With all the children having flown the coop, this retired couple moved into a newly built apartment that did not suit their refined sensibility. We worked with them to ensure that many cherished furniture pieces from their family home could be brought back to life in a new setting. We added Designers Guild wallpapers and repainted the apartment to ensure that there was a connection and a story between all the rooms.

New furniture and soft furnishings were custom designed at an appropriate scale and style using luxury fabrics by William Yeoward and Gaston & Daniela. The end result is an elegant and modern apartment that will be cherished for many years by the family.

ASCOT RESIDENCE

This beautiful heritage home had been in the family for decades and was in need of a modern facelift. We were engaged following the completion of a home renovation to help transform the master bedroom, living rooms and entertaining areas.

The brief was to retain the old world charm of the 'Queenslander' and to accentuate an extensive collection of artworks, antique furniture and family heirlooms. We applied a colour palate that exuded classic cool across custom designed ottomans, couches, and soft furnishings, including drapery and cushions. Christian Lacroix Fabrics become the hero.

With a styling that is appealing and highly marketable, this residence will be treasured for many years by its current and potential future homeowners.undertaken to make each room truly special.

CLAYFIELD RESIDENCE

A professional couple that came to us with a clear brief – to beautify living room and master bedroom, and create more storage options without changing the structure of the house. Working within a tight brief and timeline, we reupholstered existing furniture and added new pieces to create a luxurious living room that maximises functionality.

The design of the new en suite and master bathroom is framed by hero pieces including the mirror and freestanding bath. Vivid blue hues that carry throughout the home add a wow factor to the experience for visitors and a sense of calm for its owners.

PRODUCT DESIGN

HAMILTON RESIDENCE

A sense of prestige to match this expansive home in one of Brisbane's most sought after suburbs. We created a stunning entryway that exemplifies the owners' unique style and is guaranteed to make a lasting impression on anyone that enters this home.

Using handblocked wallpaper from the archive of Cole & Sons, we were able to make a unique and visually appealing contrast to the rich wooden panels. The lounge and formal dining rooms featured sensible tones from Ralph Lauren Wallpaper Collection and contrasting patterns from a boutique European fabric house.
